

Networking Event - Datacentre.me

This is an invite-only, end user event. We limit the numbers of vendors present (the only vendor companies allowed to register are either sponsoring the event or the DATACENTRE.ME website). This means that we attract a greater mix of attendees and you can register safe in the knowledge that you will not be surrounded by wall-to-wall vendors that only want to talk to you to sell you something!

There will be absolutely no cost to yourselves as beer, wine, soft drinks & canapés will be very kindly provided, courtesy of our event sponsors. You will have the opportunity to network with many industry VIPs - you can expect approximately 150-170 in attendance on the evening, many of whom are senior management / C-level professionals within the data centre industry from banks, legal firms, enterprises and data centres themselves.

Our events are well-organised, relaxed evenings of pure networking with no formal presentations to sit through.

To help ensure a good mix of attendees, we limit the number of attendees from any one company to 4.

You will be wined and dined in a prestigious venue in the City of London (EC3), just a short walk from many underground and mainline stations, making it extremely accessible for people travelling from anywhere in or around London. Full details will be supplied to all confirmed registrants nearer the time.

Attendees have the opportunity of winning some fabulous prizes in the prize draw - simply bring a business card with you to enter.

As previously mentioned, this is an end user event and is by invitation only however, if you are a Data Centre manager, Infrastructure Manager, Operations Director, CTO, vendor-neutral Consultant, Installer or similar and would like to attend, please add your name to the waiting list (using your corporate email address please) or email caroline@datacentre.me with your full contact details and we will very gladly release a ticket for you.

Please note that, if your organisation is a supplier / manufacturer / distributor of products or services that are sold into data centres you will be classed as a vendor meaning that you will not qualify for a ticket for this event - in this case please let me know if you would like to sponsor the event and / or the DATACENTRE.ME website which will then qualify you to attend.

This is a ticketed event meaning no ticket = no entry on the night. If you wish to attend you must get in touch beforehand to register.

Please contact Caroline Hitchins on +44 (0) 7544 121900 or email caroline@datacentre.me
