

## Data Centre World - Frankfurt

Data Centre World Frankfurt is not just a trade show.

It's a conference, exhibition, networking hub, seminar series, media hot-spot and new product launch pad, presenting the real benefits of data centre developments to an eager audience of enterprise and Mittelstand buyers.

Whatever level of data centre you run, there's one way you will be able to run it better and that's to be at Data Centre World 2017. This year's event will bring you an unrivalled line up of world-class suppliers to the data centre sector, thousands of hours of free content from the industry's leading practitioners and first class peer networking opportunities.

Data Centre World Frankfurt, comes with so much more, too. Because it's co-located with some of the most unmissable tech events in the world, you also get access to Cloud Expo Europe and Cloud Security Europe Frankfurt.
