

Data Centres Ireland 2018

DataCentres Ireland will be in it's seventh year next year and combines both a dedicated exhibition and an adjacent multi-streamed conference, giving attendees access to the latest in information, best practice, products, services and solutions. The Conference is your opportunity to hear the latest in ideas, best practice and case studies presented by leading industry experts and part in facilitated discussions. DataCentres Ireland addresses every aspect of planning, designing and operating your datacentre, server room, storage facility or solution.

Whether you have 2 stacks or 40 comms rooms, these are your data centres and DataCentres Ireland is the right place for you!

DataCentres Ireland is FREE to attend. Register your interest to receive updates on the event. So, seize the opportunity and be part of something big. Join DataCentres Ireland on 20-21 November 2018 in the Main Hall at the RDS, in Dublin.
